**YOUR CALL FOR HELP ANSWERED BY PEOPLE OF YOUR CHOICE.**

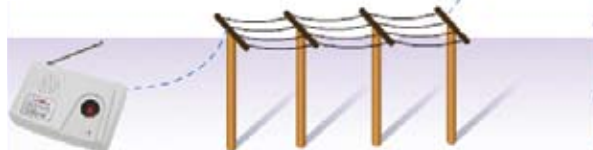

*CareAlert Smart Dialler has been officially approved by the Emergency Services to allow "000" to be programmed as a final number.*

**HOW IT WORKS**

- 1 When help is required **just press the red buttons** on your remote waterproof pendant.
- 2 The CareAlert Smart Dialler immediately dials out to the first of 5 nominated phone numbers **of your choice**.
- 3 **If not answered live**, it will proceed to dial out to the next programmed number, until all 5 numbers are called. In the unlikely event of no-one answering, it will repeat this procedure. The Smart Dialler **will not** accept an answering machine/service as being live answered and so will continue to dial the next number.
- 4 The recipient of this call will hear your recorded voice message seeking assistance and **help will then be on its way.**

- 5 Two way communication may be established via the speaker/microphone within the Smart Dialler.
- 6 The CareAlert Smart Dialler can have any amount of extra pendants coded to work with it.

**EMPLOYERS**  
The CareAlert Smart Dialler helps you conform to the OH&S regulations regarding employees working alone.

**OTHER APPLICATIONS**

**DOMESTIC**

"There's no place like home". The CareAlert Smart Dialler will help you enjoy continued home independence.

**RETIREMENT VILLAGES/NURSING HOMES**

With the CareAlert Smart Dialler the 24 hour resident carer or a family member, neighbour or friend will pick up your call for emergency help.

**CONVALESCING PATIENTS**

You will feel more comfortable in your own home after surgery. There is extra peace of mind when the CareAlert Smart Dialler is right alongside of you.

**PHYSICALLY IMPAIRED PERSONS**

Those with a physical disability know the importance of having assurance and confidence that help is always close at hand.

**LIVING IN ISOLATION**

The CareAlert Smart Dialler can provide a high degree of aid should an accident or sudden illness strike whilst at home.

**BUSINESS**

Working alone in a business can be daunting. Vulnerability is reduced however when the Smart Dialler is set to "mute", a call for assistance occurs undetected.
